18" Seat width

The EVS 1850 Hi-BAC™ Safety Seat makes it easier, safer and more convenient to transport uninjured children just like the original Hi-BAC™ 1800 with one major upgrade –

The EVS 1850 Hi-BAC™ Safety Seat, always where you need it, when you need it the most!

The 1850 is engineered to meet or exceed OSHA's standards for the removal of blood borne pathogens. Everything you have come to expect from E.V.S., Ltd. and the Hi-BAC™ Safety Seat is built into the 1850

SEAMLESS CONSTRUCTION!

with the additional upgrade of engineered seamless construction, which means increased safety for you and the kids.

OTHER EVS 1850 FEATURES

- Sled tested to meet or exceed all applicable FMVSS specs and GSA specified for use in government ambulances.
- Molded foam pack provides greater comfort and support.
- Ergonomically correct 33" seat back helps prevent EMT whiplash injury.
- 9" base cabinet with universal mounts for rear or side opening compartments.
- Medical grade bacterial resistant vinyl.
- Available as OEM equipment or aftermarket retrofit for Types I, II and III vehicles.

Note: The 1850 seat is for children that weigh between 20 and 50 pounds and are 28 to 47 inches tall and capable of sitting upright alone. IMPORTANT! This is NOT AN INFANT SEAT! It is NOT for use by children less than 1-year old or those that do NOT meet the weight, height, and capability requirements. HASSEL-FREE® is a registered trademark of Hassel Free, Inc.

Note: Product photography is subject to change from shown, based upon improvement in design or safety features.
